REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art does not describe a hydrogen generator system having first and second containers which share at least one side with a flexible partition and having a catalyst system in fluid communication with the first and second containers and a pumping system in fluid communication with the catalyst system, or a spent fuel line in fluid communication with the catalyst system and at least a portion of the spent fuel line being wrapped around a portion of the outside of the second container, or first and second containers which share a common portion and the common portion responds to reactant material exiting through an exit port so as to decrease the volume of the first container and increase the volume of the second container and the second container configured to output hydrogen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel M Heinrich whose telephone number is 571-272-1175. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas G Dunn can be reached on 571-272-1171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
